

## **MONONA GROVE SCHOOL DISTRICT**

Board Policy 223

### **BOARD-SUPERINTENDENT RELATIONS**

The effectiveness with which a district operates depends in large measure upon the successful separation of legislative and executive duties between the Board and Superintendent.

Matters requiring Board action must be presented by the Superintendent through proper channels to the entire Board. Board decisions must be conveyed by the Superintendent to staff in a timely manner.

The Superintendent will keep the Board informed on progress made in implementing Board action taken. This will enable the Board to evaluate both the action and the process of implementation.
