MONONA GROVE SCHOOL DISTRICT

Board Policy 940

NAMING SCHOOL FACILITIES

The major focus of school property should be toward the achievements of the students. It is the responsibility of the Board to preserve the properties of the Monona Grove School District as significant and relevant to future students as well as the current population of students. To meet this responsibility, it shall be the policy of the Board to:

1. Allow a new or existing building to be named after an individual only if the individual has been deceased for at least 5 years.

2. Allow new, remodeled or existing rooms or other areas to be named after an individual or entity only if the individual or entity is considered a major contributor to the Monona Grove School District.

The name of a building, room or other area must be approved by two-thirds of the entire membership of the Board.

This policy does not prohibit the Board to consider other naming possibilities during the construction or remodeling of school facilities.
